Burglare on Franklin Hill.

A daring burglar broke into several

Monday morning and stole valuables to

the amount of about \$300. The inves-

tigation by the police leads to the con-

clusion that a shrewd and skillful thief,

known to the police of this town,

Orange, Gien Ridge and Montclair as the man with the small hand," and

usually dispose of their goods did

the work. There is now among

the curios of the local police de-

partment a block of wood cut out of the

door panel of Fred J. Ogden's house and

also a similar block cut from a door

panel to Dr. H. E. Richards house. The

similarity of the two pieces point al-

most conclusively to being the same

man's work. The auger with which the

holes were bored the door in Dr.

home from a journey out of town. They

had retired but a short time when they

were aroused by the vigorous barking of

a house dog. A noise such as might be

attributed to mice or rate gnawing

wood was heard and the dog's agitation

was thought to be due to some such

cause. Next morning it was discovered

that a thief had been around the prem-

tses and had bored holes through the

outside cellar door and opened it and

had started similar work on the door at

the head of the cellar stairs and opening

on to the first floor of the house. The

vigilence of the house dog caused the

thief to abandon his project of robbing

the house. The thief then turned his

attention to Samuel H. Clapt's residence

on Franklin Hill and got in there and

stole a silver sugar spoos which had

been left on the dining table. The

thief's visit to Mr. Clapt's house was

premature, for the family had just

moved in and things were not yet set to

rights. At the residence of Dr. Harry

E. Richards on Franklin Hill the burglar

succeeded in making a valuable haul,

the articles stolen amounting in value

to about \$300. Entrance was gained to

Dr. Richards' through the door on the

east side of the house. The articles

stolen consisted of silverware, cut glass
